

Systems Analyst

Collicutt Energy Services Corp., a leading the industry in engine related service and manufacturing, is currently seeking a highly skilled Systems Analyst to join our Red Deer Head Office location. The ideal candidate will have a strong background in programming and database management. As a Systems Analyst, you will be responsible for creation and maintenance of our company's applications, systems, network, and databases.

The Systems Analyst position would have the opportunity of a **hybrid work model**. The successful candidate would be expected to work from our Red Deer Head Office 2-3 days per week and then remotely the remaining days.

The successful candidate will be responsible for:

- Develop and maintain scripts and applications using Python, JavaScript, jQuery, HTML, CSS, Vue.js, and Angular, Visual Basic, IIS
- Install, configure, and maintain computer systems, network, database, and web servers
- Monitor system performance and troubleshoot issues as they arise
- Monitor network for security threats and identify vulnerabilities
- Manage Windows Server and virtualization technologies such as Hyper-V and VMware
- Manage database systems and write SQL queries to extract and manipulate data
- Participate in the systems development life cycle to ensure the delivery of high-quality software
- Ensure the security and reliability of company systems and data
- Provide technical support to end-users as needed
- Manage backups and data recovery protocols
- Cisco Meraki network appliance configuration, deployment and support
- Expertise in Office 365 administration including Exchange Online, Teams, and Office Suite
- Stay current with new technologies and make recommendations for future improvements
- All other duties as required

Related Experience & Skills:

- Bachelor's degree in Computer Science, Information Systems, or related field
- Minimum of 3 years of experience in systems administration and networking
- Proficiency in programming languages such as Python, JavaScript, jQuery, HTML, CSS, Vue.js, and Angular, Visual Basic, Php
- Expertise in web framework technologies and client server model
- Strong knowledge of database management systems and SQL scripting
- Experience with Windows Server management, Hyper-V, and VMware
- Knowledge of systems development life cycle and software development methodologies
- Excellent troubleshooting and problem-solving skills
- Strong written and verbal communication skills
- Able to work in a fast-paced, dynamic environment
- Effective time management, including the ability to anticipate and deal with the effects of change
- Able to communicate effectively, both verbally and in writing
- Commitment to Collicutt Core Purpose and Core Values

The potential for success with our expanding, progressive, privately owned business is unlimited. We recognize our team members as individuals, and consider mutual RESPECT the key to building a cohesive, productive Team.

We offer a comprehensive compensation package including: solid group benefits, RRSP matching, PPE allotment, referral bonus, apprenticeship and course reimbursements, bereavement benefits, and access to world class medical specialists through our unique Best Doctor's program.

If you are interested in this exciting opportunity that offers endless learning opportunities, a safety first philosophy, mutual commitment, fun, and community involvement, then don't wait any longer! Come be part of our FAMILY.

Please submit your resume in confidence, along with your salary expectation, and availability date to HR@collicutt.com or to our Red Deer office at 8133 Edgar Industrial Close, Red Deer, AB.

Our Core Values: No One Gets Hurt ~ We Are Like a Family ~ Do What's Right ~ Do What You Say ~ It's Fun to Win ~
