Performing preventative maintenance and scheduled servicing on heavy equipment as well as troubleshooting and repairing transmission and hydraulic systems are a frequent service requests in this position.

In this role, you will also be responsible to:

- Conduct pre- and post-repair testing to ensure equipment performance.
- Maintain a clean and organized work area, ensuring tools are in proper working order.
- Provide excellent customer service by responding to client needs efficiently.
- Accurately complete required documentation, including service reports and warranty claims.
- Support and mentor junior technicians and apprentices.
- Follow workplace health and safety standards.
- Work overtime as needed to meet business demands.

Qualifications and Skills

Required

- Journeyman Certification as Heavy Equipment Technician or Heavy Duty Mechanic
- Current CVIP License (or willingness to obtain)
- Valid Class 5 driver's license with a Clean Driving Abstract

Additional experience that aligns with this role:

- CAT 3512, Cummins QSK50, Detroit 60 and MTU engines
- CAT TH48 and TH55 transmissions
- hydraulics
- working with, and repairing, frac equipment and truck/trailer units

As a Technician in this role, you will also have:

- Strong troubleshooting and problem-solving skills
- Mechanical and electrical aptitude
- Ability to read and interpret schematics
- Safety-conscious with attention to quality and detail
- Excellent communication and organizational skills
- Basic computer proficiency (email, Microsoft Word, OEM software)

As a team member at Collicutt Energy Services, you can enjoy:

- Competitive Wages
- Solid Group Benefits
- RRSP Matching
- Referral Bonuses
- PPE Allowance
- Modified Schedule (provides every second Friday off)
- Apprenticeship & Course Reimbursements

If you are interested in this opportunity, please submit your resume to hr@collicutt.com with **Red Deer - HET with Frac** in the subject line.
